Tower Health Medical Group & Tower Health Urgent Care Visitation Restrictions

Tower Health is closely monitoring the COVID-19 situation in our community. We are committed to protecting the safety of our patients, staff, and community. To do our part in reducing the spread of the COVID-19 virus, we are implementing the following visitor restrictions and screening policies at our Tower Health Medical Group (THMG) and Tower Health Urgent Care (THUC) locations until further notice:

- Each patient may only be accompanied by one support person. For pediatric patients, parents or a legal guardian may accompany.

- All support persons must be screened before entering the THMG/THUC location in accordance with guidelines from the Centers for Disease Control and Prevention (CDC) and Pennsylvania Department of Health (PA DOH). Screening will occur at the entry point for each THMG/THUC practice location.

In an abundance of caution, we will also take the following precautionary measures:

- All activities that invite community members to any Tower Health facility for events or educational programs will be cancelled until further notice.

- Vendor visitation to THMG and THUC practices will be restricted.

- No volunteer services will be utilized at THMG and THUC practices.

- Delivery of food, flowers, or other items from outside sources will be restricted.

Your health, safety, and comfort are our top priorities. These restrictions will be continuously evaluated as the COVID-19 situation evolves.
