Tower Health Visitation Restrictions

Tower Health is closely monitoring the COVID-19 situation in our community. We are committed to protecting the safety of our patients, staff, and community. To do our part in reducing the spread of the COVID-19 virus, we are implementing the following visitor restrictions and screening policies at **all Tower Health hospitals** until further notice:

- No visitors under the age of 18 are permitted.

- **Adult Patients** may have only 1 visitor at a time.

- **Pediatric Patients** may have 2 visitors if both are either a parent or legal guardian.

- **All visitors must be screened before entering the hospital in accordance with guidelines from the Centers for Disease Control and Prevention (CDC) and Pennsylvania Department of Health (PA DOH). Screening will occur at all hospital entry points on each campus.**

In an abundance of caution, we will also take the following precautionary measures:

- All activities that invite community members to any Tower Health facility for events or educational programs will be cancelled until further notice.

- Volunteer services will be restricted to only those that are clinically required.

- Only clinically required vendors will be permitted at the hospitals.

- Delivery of food, flowers, or other items from outside sources will be restricted.

Your health, safety, and comfort are our top priorities. These restrictions will be continuously evaluated as the COVID-19 situation evolves.
